

ARES ELITE SPORTS VISION

Eye-Hand Coordination Drills

A 4-week progressive program · 2 drills a day

11 drill families · 35+ level progressions · 25 reps each

- Hermes — Foundational
- Helios — Foundational
- Harpies — Decision-Making
- Hephaestus — Decision-Making
- Horne — Core + Reaction
- Hypnos — Control
- Horkos — Reaction
- Homados — Beginner
- Hecate — Intermediate
- Hercules — Advanced
- Harmonia — Control

All you need is 1 or 2 balls.

How this program works

Two drills a day. Level up every week.

Every drill here trains the same thing: getting what your eyes see into your hands, fast and accurately. You do TWO drills per day for 28 days. Which drills you get is randomized so no pattern gets stale — but the LEVEL climbs every week.

THE PROGRESSION RULE

- Always start at Level 1 of whatever drill is prescribed.
- Week 1 = Level 1 · Week 2 = Level 2 · Week 3 = Level 3 · Week 4 = Level 4
- If a drill has fewer levels, you simply stay at its highest level.
- Master the level you are on before pushing ahead — clean reps beat rushed ones.

● **Equipment: 1 or 2 balls**

That is the entire kit. Tennis balls, racquetballs, or any ball you can grip one-handed. A few drills use two.

● **25 reps per drill**

Every drill is 25 repetitions. Record how many you CAUGHT and how many you DROPPED.

● **Score yourself**

Your catch rate is the metric. Watch it climb week over week — that is the training working.

● **Give yourself space**

Some drills throw behind your back or overhead. Clear the area and work away from breakables.

Drill Library

Purpose, setup, and every level progression.

Hermes Drill

FOUNDATIONAL

EQUIPMENT 1 ball

PURPOSE Eye-hand coordination, spatial awareness of where your hands and legs are in space, and reaction time.

SET-UP

- Stand upright.
- Hold one ball in the starting hand (hand on top, ball underneath in a grip).

Level 1

- 1 Hold the ball in your DOMINANT hand.
- 2 Release it with a slight upward toss.
- 3 At the same time, raise your opposite (non-dominant) knee to hip height.
- 4 Use your dominant hand to tap the top of that non-dominant knee while the ball is in the air.
- 5 Quickly move your hand back to the dominant side and catch the ball.

Level 2

- 1 Hold the ball in your NON-DOMINANT hand.
- 2 Release it with a slight upward toss.
- 3 At the same time, raise your opposite (dominant) knee to hip height.
- 4 Use your non-dominant hand to tap the top of that dominant knee.
- 5 Quickly move your hand back to the non-dominant side and catch the ball.

Level 3

- 1 Hold the ball in your DOMINANT hand and release with a slight toss.
- 2 Raise your DOMINANT knee to hip height.
- 3 Use your dominant hand to tap the top of your dominant knee (same side).
- 4 Quickly catch the ball.

Level 4

- 1 Hold the ball in your NON-DOMINANT hand and release with a slight toss.
- 2 Raise your NON-DOMINANT knee to hip height.
- 3 Use your non-dominant hand to tap the top of your non-dominant knee (same side).
- 4 Quickly catch the ball.

COMPLETE: 25 reps — record # caught and # dropped

Drill Library

Purpose, setup, and every level progression.

Helios Drill

FOUNDATIONAL

EQUIPMENT 1 ball (2 for Levels 5 & 10)

PURPOSE Eye-hand coordination and reaction time, plus visuospatial and peripheral awareness.

SET-UP

- Stand upright with room behind you.
- Throw is made behind your back, over the opposite shoulder.

Level 1

- 1 Hold a ball in your dominant hand.
- 2 Reaching behind your back in a throwing motion toward the opposite shoulder, release the ball over that shoulder.
- 3 As it flies, find it with your vision, then catch it with your OPPOSITE hand.

Level 2

- 1 Same throw from the dominant hand.
- 2 Find the ball with your vision and catch it with your THROWING hand.

Level 3

- 1 Same throw from the dominant hand.
- 2 While the ball is in the air, use your dominant hand to tap the knee of your dominant leg.
- 3 Then find the ball and catch it with your OPPOSITE hand.

Level 4

- 1 Same throw from the dominant hand.
- 2 Tap your dominant knee with your dominant hand while the ball is airborne.
- 3 Then find the ball and catch it with your THROWING hand.

Level 5

- 1 Using TWO balls, hold both in your dominant hand.
- 2 Throw both behind your back over the opposite shoulder.
- 3 Find them with your vision and catch one with each hand.

Level 6

- 1 Hold a ball in your NON-DOMINANT hand and throw over the opposite shoulder.
- 2 Catch it with your OPPOSITE hand.

Helios Drill (continued)

Level 7

- 1 Same non-dominant throw.
- 2 Catch it with your THROWING hand.

Level 8

- 1 Same non-dominant throw.
- 2 Tap your non-dominant knee with your non-dominant hand while the ball is airborne.
- 3 Then catch with your OPPOSITE hand.

Level 9

- 1 Same non-dominant throw.
- 2 Tap your non-dominant knee while the ball is airborne.
- 3 Then catch with your THROWING hand.

Level 10

- 1 Using TWO balls, hold both in your non-dominant hand.
- 2 Throw both over the opposite shoulder.
- 3 Catch one with each hand.

COMPLETE: 25 reps — record # caught and # dropped

Harpies Drill

DECISION-MAKING

EQUIPMENT 2 balls

PURPOSE Eye-hand coordination with an associated visual decision-making process.

SET-UP

- Hold one ball in each hand.

Level 1

- 1 Throw the ball in your RIGHT hand straight up in the air.
- 2 While it is airborne, toss the ball in your left hand across to your right hand.
- 3 Pass it quickly back to the left hand BEFORE the first throw lands back in your right hand.
- 4 Repeat, alternating each side.

Harpies Drill (continued)

Level 2

- 1 Perform the same task as Level 1.
- 2 To increase difficulty, make your initial throws lower.
- 3 Once coordinated, throw the balls at the SAME time.
- 4 As the right-hand ball goes up, simultaneously toss the left ball to your right hand, return it to the left hand, and catch the airborne ball in your right.

COMPLETE: 25 reps — record # caught and # dropped

Hephaestus Drill

DECISION-MAKING

EQUIPMENT 1 ball

PURPOSE Eye-hand coordination with an associated visual decision-making process.

SET-UP

- Throw travels up and over the SAME arm/shoulder, angled to land toward the center of your body.

Level 1

- 1 Start with one ball in your DOMINANT hand.
- 2 Reach back and throw the ball up and over that same arm/shoulder.
- 3 Angle it to land toward your body's center and catch with your NON-DOMINANT hand.

Level 2

- 1 Start with one ball in your NON-DOMINANT hand, thrown over that same shoulder.
- 2 Catch with your DOMINANT hand.

Level 3

- 1 Start with one ball in your DOMINANT hand, thrown over that same shoulder.
- 2 Catch with your DOMINANT hand.

Level 4

- 1 Start with one ball in your NON-DOMINANT hand, thrown over that same shoulder.
- 2 Catch with your NON-DOMINANT hand.

COMPLETE: 25 reps — record # caught and # dropped

Drill Library

Purpose, setup, and every level progression.

Horme Drill

CORE + REACTION

EQUIPMENT 1 ball

PURPOSE Eye-hand coordination while training reaction time and core strength.

SET-UP

- Place the ball on the floor in front of you.
- Get into a plank position with your face directly above the ball.

Single Level

- 1 Take the ball in your dominant hand — you are now in a one-handed plank.
- 2 Maintaining the plank, toss the ball slightly into the air.
- 3 While it is airborne, place the hand that released it back onto the floor.
- 4 Take the other hand off the floor, reach up, and grab the ball.

COMPLETE: 25 reps — record # caught and # dropped

Hypnos Drill

CONTROL

EQUIPMENT 2 balls

PURPOSE Eye-hand coordination, reaction time and visuospatial awareness through graded vertical control.

SET-UP

- Hold one ball in each hand, palms facing upward.

Single Level

- 1 Start at the top, reaching above your head, and drop the ball over your opposite arm.
- 2 Allow the ball to fall only a short distance before catching it with the same hand.
- 3 Hit four different vertical levels with each catch on the way down, then reverse back up.
- 4 Keep the height of the levels consistent each round.

COMPLETE: 25 reps — record # caught and # dropped

Drill Library

Purpose, setup, and every level progression.

Horkos Drill

REACTION

EQUIPMENT 2 balls

PURPOSE Eye-hand coordination, reaction time and visuospatial awareness under a hand-switch demand.

SET-UP

- Hold two balls at about head height, one in each hand.

Level 1

- 1 Hold the balls with palms facing **DOWNWARD** and your arms **CROSSED**.
- 2 Drop them.
- 3 As the balls fall, quickly **UNCROSS** your hands.
- 4 Catch each ball with the opposite hand from the one that dropped it.

Level 2

- 1 Hold the balls at head height with hands **UNCROSSED**, palms facing downward.
- 2 Drop them at the same time.
- 3 As they fall, quickly **CROSS** your hands so your palms face upward.
- 4 Catch each ball with the opposite hand from the one that dropped it.

COMPLETE: 25 reps — record # caught and # dropped

Homados Drill

BEGINNER

EQUIPMENT 1 ball

PURPOSE Eye-hand coordination, reaction time and visuospatial awareness across a large vertical distance.

SET-UP

- Work near open floor space — you may need to crouch.

Level 1

- 1 Hold one ball high in your **DOMINANT** hand, above your head.
- 2 Release the ball.
- 3 Quickly move that same hand down toward your feet/the floor as fast as possible (crouch if necessary).
- 4 Catch the ball palm-up in your dominant hand.

Homados Drill (continued)

Level 2

- 1 Hold one ball high in your NON-DOMINANT hand, above your head.
- 2 Release the ball.
- 3 Quickly move that same hand down toward your feet/the floor.
- 4 Catch the ball palm-up in your non-dominant hand.

COMPLETE: 25 reps — record # caught and # dropped

Hecate Drill

INTERMEDIATE

EQUIPMENT 1 ball

PURPOSE Eye-hand coordination, reaction time and visuospatial awareness with a blind catch behind the back.

SET-UP

- You will catch behind your back — start slow and reposition your body as needed.

Level 1

- 1 Hold one ball in your DOMINANT hand.
- 2 Toss it from chest height, over that same shoulder, heading toward your back.
- 3 As it flies, reach the releasing hand down and behind that shoulder.
- 4 Catch it as it falls over your shoulder into your hand behind your back.

Level 2 (bounce)

- 1 Same as Level 1, but toss the ball DOWN to the floor hard enough to bounce 4-5 feet up.
- 2 Let the bounced ball travel over your dominant shoulder toward your back.
- 3 Reach behind that shoulder and catch it behind your back.

Level 3

- 1 Hold one ball in your NON-DOMINANT hand.
- 2 Toss from chest height over that same shoulder toward your back.
- 3 Reach that hand behind the shoulder and catch it behind your back.

Level 4 (bounce)

- 1 Same as Level 3, but bounce the ball off the floor 4-5 feet high first.
- 2 Let it travel over your non-dominant shoulder and catch behind your back.

COMPLETE: 25 reps — record # caught and # dropped

Drill Library

Purpose, setup, and every level progression.

Hercules Drill

ADVANCED

EQUIPMENT 1 ball

PURPOSE Eye-hand coordination, reaction time and peripheral pickup under an advanced body position.

SET-UP

- Levels 3-4 are performed in a one-handed plank — build core control first.

Level 1

- 1 Hold one ball in your DOMINANT hand, both hands elevated above your shoulders.
- 2 Move your head slightly forward and release the ball from the dominant hand, behind your head, to your non-dominant hand.
- 3 It should travel in a slightly bent straight line from one hand to the other.
- 4 Catch with your non-dominant hand by locating the ball quickly out of your peripheral vision.

Level 2

- 1 Same as Level 1, starting with the ball in your NON-DOMINANT hand.
- 2 Release behind your head to your dominant hand.
- 3 Catch with your dominant hand using peripheral vision.

Level 3

- 1 Hold one ball in your DOMINANT hand in a one-handed plank position.
- 2 Use that hand to toss the ball over your planked back to the dominant side.
- 3 Quickly return the hand to the dominant side and catch the ball as it flies over your back — stay in the plank.

Level 4

- 1 Hold one ball in your NON-DOMINANT hand in a one-handed plank position.
- 2 Toss the ball over your planked back to the non-dominant side.
- 3 Return the hand and catch it while remaining in the plank.

COMPLETE: 25 reps — record # caught and # dropped

Drill Library

Purpose, setup, and every level progression.

Harmonia Drill

CONTROL

EQUIPMENT 1 ball

PURPOSE Eye-hand coordination, reaction time and visuospatial awareness with a hip-to-shoulder throw.

SET-UP

- The throw starts at hip height and travels behind your back, over the shoulder.

Level 1

- 1 Hold one ball in your DOMINANT hand.
- 2 Toss from the hip area, behind your back, over that same shoulder.
- 3 Adjust and catch with that SAME dominant hand.

Level 2

- 1 Same dominant hip-to-shoulder toss.
- 2 Adjust and catch with the OPPOSITE (non-dominant) hand.

Level 3

- 1 Hold one ball in your NON-DOMINANT hand.
- 2 Toss from the hip, behind your back, over that same shoulder.
- 3 Catch with that SAME non-dominant hand.

Level 4

- 1 Same non-dominant hip-to-shoulder toss.
- 2 Catch with the OPPOSITE (dominant) hand.

COMPLETE: 25 reps — record # caught and # dropped

The 4-Week Schedule

Randomized drills · the level climbs each week.

WEEK 1 — work at Level 1 (or the drill's highest level)

Mon	Tue	Wed	Thu	Fri	Sat	Sun
Day 1 Hermes L1 Hephaestus L1	Day 2 Harpies L1 Hypnos —	Day 3 Helios L1 Horkos L1	Day 4 Horme — Hercules L1	Day 5 Harmonia L1 Hecate L1	Day 6 Homados L1 Horme —	Day 7 Horkos L1 Hypnos —

WEEK 2 — work at Level 2 (or the drill's highest level)

Mon	Tue	Wed	Thu	Fri	Sat	Sun
Day 8 Hermes L2 Homados L2	Day 9 Hecate L2* Hephaestus L2	Day 10 Helios L2 Harpies L2	Day 11 Hercules L2 Harmonia L2	Day 12 Helios L2 Hecate L2*	Day 13 Hephaestus L2 Hypnos —	Day 14 Harmonia L2 Hermes L2

WEEK 3 — work at Level 3 (or the drill's highest level)

Mon	Tue	Wed	Thu	Fri	Sat	Sun
Day 15 Horme — Harpies L2	Day 16 Homados L2 Horkos L2	Day 17 Hercules L3 Hypnos —	Day 18 Hecate L3 Horkos L2	Day 19 Helios L3 Horme —	Day 20 Hercules L3 Harpies L2	Day 21 Homados L2 Hermes L3

WEEK 4 — work at Level 4 (or the drill's highest level)

Mon	Tue	Wed	Thu	Fri	Sat	Sun
Day 22 Harmonia L4 Hephaestus L4	Day 23 Hercules L4 Horkos L2	Day 24 Helios L4 Harpies L2	Day 25 Hephaestus L4 Hecate L4*	Day 26 Hypnos — Hermes L4	Day 27 Homados L2 Horme —	Day 28 Harmonia L4 Harpies L2

* = bounce variation. Each drill appears about 5 times across the 28 days. Swap days freely — just keep it to two drills daily.

28-Day Catch Tracker

Log caught and dropped. Your catch rate is the metric.

DAY	DRILLS	CAUGHT	DROPPED	CATCH %	NOTE

The eyes find it. The hands finish it.

Eye-hand coordination is where vision becomes performance. When you're ready to understand the full loop — how you acquire, route, execute, and synchronize what you see — the A.R.E.S. Performance Series takes you all the way there.
